

HOUSE No. 4345

The Commonwealth of Massachusetts

HOUSE OF REPRESENTATIVES, July 31, 2025.

The committee on Financial Services, to whom was referred the petition (accompanied by bill, House, No. 1317) of Amy Mah Sangiolo, Natalie M. Blais and Patrick Joseph Kearney relative to the access of breast pumps, reports recommending that the accompanying bill (House, No. 4345) ought to pass.

For the committee,

JAMES M. MURPHY.

HOUSE No. 4345

The Commonwealth of Massachusetts

In the One Hundred and Ninety-Fourth General Court
(2025-2026)

An Act improving access to breast pumps.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. Chapter 32A of the General Laws, as appearing in the 2022 Official
2 Edition, is hereby amended by adding the following section:-

3 Section 35. (a) As used in this section, “multi-user breast pump” shall mean a breast
4 pump that is: (i) capable of initiating and supporting milk supply; (ii) able to be used by multiple
5 users safely and hygienically; (iii) durable enough to be used by a mother who is expressing 8
6 times per day or more; (iv) is made for heavy usage with a long motor life; (v) operating using a
7 closed system; (vi) is capable of suction power from 0 to 300 mmHg; (vii) has a multiphase
8 system or the ability to customize vacuum and cycling for each user; and (viii) is run on
9 electricity, not batteries alone.

10 (b) The commission shall provide to an active or retired employee of the commonwealth
11 who is insured under the group insurance commission coverage for the cost of the rental and
12 usage of a multi-user breast pump by the mother of a newborn infant who is receiving care at an
13 intensive care or special care nursery, or has cardiac, neurological, or oral anomalies that prevent

14 direct feeding at the breast, until such time as the infant is discharged, or until the mother is no
15 longer pumping breastmilk. The multi-user breast pump shall be made available to the user
16 within 24 hours of maternal hospital discharge.

17 (c) The commission shall provide to an active or retired employee of the commonwealth
18 who is insured under the group insurance commission, and eligible for a covered multi-user
19 breast pump under this section, coverage for: (i) periodic replacement parts for the multi-user
20 breast pump including, but not limited to, connectors, valves, tubing, backflow protectors, and
21 flanges; (ii) breast milk storage bags; and (iii) microwave bags for sterilizing the multi-user
22 breast pump parts.

23 (d) The commission shall provide to an active or retired employee of the commonwealth
24 who is insured under the group insurance commission, and eligible for a covered multi-user
25 breast pump under this section, coverage for: (i) an initial assessment, instruction and fitting by
26 an International Board Certified Lactation Consultant (IBCLC); and (ii) ongoing assessment,
27 support and refitting as needed by an IBCLC.

28 SECTION 2. Chapter 118E of the General Laws is hereby amended by inserting after
29 section 10Z the following section:-

30 Section 10AA. (a) As used in this section, “multi-user breast pump” shall mean a breast
31 pump that is: (i) capable of initiating and supporting milk supply; (ii) able to be used by multiple
32 users safely and hygienically; (iii) durable enough to be used by a mother who is expressing 8
33 times per day or more; (iv) is made for heavy usage with a long motor life; (v) operating using a
34 closed system; (vi) is capable of suction power from 0 to 300 mmHg; (vii) has a multiphase

35 system or the ability to customize vacuum and cycling for each user; and (viii) is run on
36 electricity, not batteries alone.

37 (b) The division and its contracted health insurers, health plans, health maintenance
38 organizations, behavioral health management firms and third-party administrators under contract
39 to a Medicaid managed care organization or primary care clinician plan shall provide coverage
40 for the cost of the rental and usage of a multi-user breast pump by the mother of a newborn
41 infant who is receiving care at an intensive care or special care nursery, or has cardiac,
42 neurological, or oral anomalies that prevent direct feeding at the breast, until such time as the
43 infant is discharged, or until the mother is no longer pumping breastmilk. The multi-user breast
44 pump shall be made available to the user within 24 hours of maternal hospital discharge.

45 (c) The division and its contracted health insurers, health plans, health maintenance
46 organizations, behavioral health management firms and third-party administrators under contract
47 to a Medicaid managed care organization or primary care clinician plan shall provide an
48 individual, who is eligible for a covered multi-user breast pump under this section, coverage for:
49 (i) periodic replacement parts for the multi-user breast pump including, but not limited to,
50 connectors, valves, tubing, backflow protectors, and flanges; (ii) breast milk storage bags; and
51 (iii) microwave bags for sterilizing the multi-user breast pump parts.

52 (d) The division and its contracted health insurers, health plans, health maintenance
53 organizations, behavioral health management firms and third-party administrators under contract
54 to a Medicaid managed care organization or primary care clinician plan shall provide an
55 individual, who is eligible for a covered multi-user breast pump under this section, coverage for:
56 (i) an initial assessment, instruction and fitting by an International Board Certified Lactation

Consultant (IBCLC); and (ii) ongoing assessment, support and refitting as needed and prescribed by provider, by an IBCLC.

SECTION 3. Chapter 175 of the General Laws is hereby amended by inserting before section 47CCC the following section:-

Section 47AAA. (a) As used in this section, “multi-user breast pump” shall mean a breast pump that is: (i) capable of initiating and supporting milk supply; (ii) able to be used by multiple users safely and hygienically; (iii) durable enough to be used by a mother who is expressing 8 times per day or more; (iv) is made for heavy usage with a long motor life; (v) operating using a closed system; (vi) is capable of suction power from 0 to 300 mmHg; (vii) has a multiphase system or the ability to customize vacuum and cycling for each user; and (viii) is run on electricity, not batteries alone.

(b) Any blanket or general policy of insurance described in subdivision (A), (C), or (D) of section one hundred and ten which is issued or subsequently renewed by agreement between the insurer and the policyholder, within or without the commonwealth, during the period within which this premium is effective, or any policy of accident or sickness insurance as described in section one hundred and eight which provides hospital expense and surgical expense insurance and which is delivered or issued for delivery or subsequently renewed by agreement between the insurer and the policyholder in the commonwealth, during the period within which this provision is effective, or any employers' health and welfare fund which provides hospital expense and surgical expense benefits and which is issued or renewed to any person or group of persons in the commonwealth, during the period within which this provision is effective, shall provide coverage for the cost of the rental and usage of a multi-user breast pump by the mother of a

newborn infant who is receiving care at an intensive care or special care nursery, or has cardiac, neurological, or oral anomalies that prevent direct feeding at the breast, until such time as the infant is discharged, or until the mother is no longer pumping breast milk. The multi-user breast pump should be made available to the user within 24 hours of maternal hospital discharge.

(c) Any policy, contract, agreement, plan or certificate of insurance issued, delivered or renewed within the commonwealth, which is considered creditable coverage under section 1 of chapter 111M, shall provide an individual, who is eligible for a covered multi-user breast pump under this section, coverage for: (i) periodic replacement parts for the multi-user breast pump including, but not limited to, connectors, valves, tubing, backflow protectors, and flanges; (ii) breast milk storage bags; and (iii) microwave bags for sterilizing the multi-user breast pump parts.

(d) Any policy, contract, agreement, plan or certificate of insurance issued, delivered or renewed within the commonwealth, which is considered creditable coverage under section 1 of chapter 111M, shall provide an individual, who is eligible for a covered multi-user breast pump under this section, coverage for: (i) an initial assessment, instruction and fitting by an International Board Certified Lactation Consultant (IBCLC); and (ii) ongoing assessment, support and refitting as needed and prescribed by provider, by an IBCLC.

SECTION 4. Chapter 176A of the General Laws is hereby amended by inserting after section 8DDD the following section:-

Section 8EEE. (a) As used in this section, “multi-user breast pump” shall mean a breast pump that is: (i) capable of initiating and supporting milk supply; (ii) able to be used by multiple users safely and hygienically; (iii) durable enough to be used by a mother who is expressing 8

101 times per day or more; (iv) is made for heavy usage with a long motor life; (v) operating using a
102 closed system; (vi) is capable of suction power from 0 to 300 mmHg; (vii) has a multiphase
103 system or the ability to customize vacuum and cycling for each user; and (viii) is run on
104 electricity, not batteries alone.

105 (b) Any contract between a subscriber and the corporation under an individual or group
106 hospital service plan that is delivered, issued or renewed within the commonwealth shall provide
107 coverage for the cost of the rental and usage of a multi-user breast pump by the mother of a
108 newborn infant who is receiving care at an intensive care or special care nursery, or has cardiac,
109 neurological, or oral anomalies that prevent direct feeding at the breast, until such time as the
110 infant is discharged, or until the mother is no longer pumping breast milk. The multi-user breast
111 pump shall be made available to the user within 24 hours of maternal hospital discharge.

112 (c) Any contract between a subscriber and the corporation under an individual or group
113 hospital service plan that is delivered, issued or renewed within the commonwealth shall provide
114 an individual, who is eligible for a covered multi-user breast pump under this section, coverage
115 for: (i) periodic replacement parts for the multi-user breast pump including, but not limited to,
116 connectors, valves, tubing, backflow protectors, and flanges; (ii) breast milk storage bags; and
117 (iii) microwave bags for sterilizing the multi-user breast pump parts.

118 (d) Any contract between a subscriber and the corporation under an individual or group
119 hospital service plan that is delivered, issued or renewed within the commonwealth shall provide
120 an individual, who is eligible for a covered multi-user breast pump under this section, coverage
121 for: (i) an initial assessment, instruction and fitting by an International Board Certified Lactation

Consultant (IBCLC); and (ii) ongoing assessment, support and refitting as needed and prescribed by provider, by an IBCLC.

SECTION 5. Chapter 176B of the General laws is hereby amended by inserting after section 4DDD the following section:-

Section 4EEE. (a) As used in this section, “multi-user breast pump” shall mean a breast pump that is: (i) capable of initiating and supporting milk supply; (ii) able to be used by multiple users safely and hygienically; (iii) durable enough to be used by a mother who is expressing 8 times per day or more; (iv) is made for heavy usage with a long motor life; (v) operating using a closed system; (vi) is capable of suction power from 0 to 300 mmHg; (vii) has a multiphase system or the ability to customize vacuum and cycling for each user; and (viii) is run on electricity, not batteries alone.

(b) Any subscription certificate under an individual or group medical service agreement delivered, issued or renewed within the commonwealth shall provide coverage for the cost of the rental and usage of a multi-user breast pump by the mother of a newborn infant who is receiving care at an intensive care or special care nursery, or has cardiac, neurological, or oral anomalies that prevent direct feeding at the breast, until such time as the infant is discharged, or until the mother is no longer pumping breastmilk. The multi-user breast pump should be made available to the user within 24 hours of maternal hospital discharge.

(c) Any subscription certificate under an individual or group medical service agreement delivered, issued or renewed within the commonwealth shall provide an individual, who is eligible for a covered multi-user breast pump under this section, coverage for: (i) periodic replacement parts for the multi-user breast pump including, but not limited to, connectors,

valves, tubing, backflow protectors, and flanges; (ii) breast milk storage bags; and (iii) microwave bags for sterilizing the multi-user breast pump parts.

(d) Any subscription certificate under an individual or group medical service agreement delivered, issued or renewed within the commonwealth shall provide an individual, who is eligible for a covered multi-user breast pump under this section, coverage for: (i) an initial assessment, instruction and fitting by an International Board Certified Lactation Consultant (IBCLC); and (ii) ongoing assessment, support and refitting as needed and prescribed by provider, by an IBCLC.

SECTION 6. Chapter 176G of the General Laws is hereby amended by inserting after section 4VV the following section:-

Section 4WW. (a) As used in this section, “multi-user breast pump” shall mean a breast pump that is: (i) capable of initiating and supporting milk supply; (ii) able to be used by multiple users safely and hygienically; (iii) durable enough to be used by a mother who is expressing 8 times per day or more; (iv) is made for heavy usage with a long motor life; (v) operating using a closed system; (vi) is capable of suction power from 0 to 300 mmHg; (vii) has a multiphase system or the ability to customize vacuum and cycling for each user; and (viii) is run on electricity, not batteries alone.

(b) An individual or group health maintenance contract that is issued or renewed shall provide coverage for the cost of the rental and usage of a multi-user breast pump by the mother of a newborn infant who is receiving care at an intensive care or special care nursery, or has cardiac, neurological, or oral anomalies that prevent direct feeding at the breast, until such time

165 as the infant is discharged, or until the mother is no longer pumping breastmilk. The multi-user
166 breast pump should be made available to the user within 24 hours of maternal hospital discharge.

167 (c) An individual or group health maintenance contract that is issued or renewed shall
168 provide an individual, who is eligible for a covered multi-user breast pump under this section,
169 coverage for: (i) periodic replacement parts for the multi-user breast pump including, but not
170 limited to, connectors, valves, tubing, backflow protectors, and flanges; (ii) breast milk storage
171 bags; and (iii) microwave bags for sterilizing the multi-user breast pump parts.

172 (d) An individual or group health maintenance contract that is issued or renewed shall
173 provide an individual, who is eligible for a covered multi-user breast pump under this section,
174 coverage for: (i) an initial assessment, instruction and fitting by an International Board Certified
175 Lactation Consultant (IBCLC); and (ii) ongoing assessment, support and refitting as needed and
176 prescribed by provider, by an IBCLC.
